Description:

The BRK Brands, Inc. Model Number 7020BSLA (CAT 1036168) is a wire-in, 120V AC 60Hz single and/or multiple station photoelectric smoke alarm with integrated 177 candela LED strobe light specifically designed for residential and institutional applications including sleeping rooms of hospitals, hotels, motels, public housing, dormitories and other multifamily dwellings. Model 7020BSLA complies with ULC STD S531 & ULC STD S526 and meets residential new construction smoke alarm requirements in Ontario. The alarms are inter-connectable with up to 18 devices, of which 12 can be smoke alarms. The BRK 7020BSLA alarms feature a photoelectric smoke sensing chamber, an integrated 177 LED candela strobe light, an 85dB horn and sealed 3V lithium battery capable of providing backup power for alarm over 10 year alarm life. The Strobe Light is designed to provide deaf & hard of hearing individuals with a visual warning of a fire. The Smart Strobe has separate flash patterns for smoke/heat and carbon monoxide dangers (when connected to a First Alert CO alarm). This helps a hearing impaired person better distinguish the danger present. The 177 candela LED strobe flashes at a rate of an average of 60 times a minute. The LED flash is also synchronized so when multiple units installed, strobes can flash in unison.

This alarm features two latching features and two silence features. Alarm Latch: Easily identifies initiating alarm even after alarm condition has subsided with blinking RED led pattern. Low Battery Latch: Identifies which unit is in low battery condition by blinking the green power light. Low Battery Silence: Temporarily silence the low battery chirp for up to eight hours. Alarm Silence: Silence alarm for several minutes. Optipath 360 technology provides 360 degrees of direct access to the smoke sensing chamber. Other Contractor preferred features include a dust cover, easy twist-lock mounting bracket and a “Quick-Connect” wiring harness.
ARCHITECTURAL AND ENGINEERING SPEC

The integrated strobe light & smoke alarm shall be a BRK Model 7020BSLA and shall provide at a minimum the following features and functions:

1. A photoelectric smoke sensing chamber.
2. A 177 candela LED strobe light. The Smart Strobe shall have separate flash patterns to distinguish between smoke/heat and carbon monoxide dangers. When multiple units installed, strobe flash patterns will synchronize.
3. Fully screened sensing chamber to resist entry of small insects thereby reducing the probability of unwanted alarms.
4. Powered by 120V AC, 60Hz and have a sealed 10 year lithium battery backup for alarm and a solid state piezo horn rated at 85dB at 10 ft and be capable of self-restoring.
5. A visual green LED power-on indicator to confirm unit is receiving power or is in alarm.
6. A full function test button should check all alarm functions by simulating a smoke condition, causing the unit to alarm.
7. Two Latching features: Alarm Latch to easily identify initiating alarm after alarm condition has subsided. Low battery latch: to visually identify which unit is in low battery condition. Two Silence Features: Alarm Silence to temporarily silence nuisance alarms. Low Battery Silence to silence low battery chirp for 8 hours.
8. The unit shall be capable of operating between 40°F (4°C) to 100°F (38°C) and relative humidity between 10% and 90%.
9. The unit shall have a plug in connector and be capable of interconnection of up to 18 units with smoke, heat, CO alarms and relays, of which 12 can be smoke alarms.
10. The unit shall at a minimum meet the requirements of ULC STD S531 & ULC STD S526.

INSTALLATION OF ALARM

Installation of this smoke alarm must conform to all Canadian electrical code. Interconnected units must meet the following requirements: wire gauge to be per local codes. It is recommended that all units be on the same fuse or circuit breaker. If local codes do not permit, be sure the neutral wire is common to both phases.

THE PARTS OF THIS ALARM

1. Mounting Bracket
2. Mounting Slots
3. Hot (Black) AC Wire
4. Neutral (White) AC Wire
5. Interconnect (Orange) Wire
6. Quick-Connect Power Connector
7. Turn this way to remove from bracket (Counterclockwise)
8. Turn this way to attach to bracket (Clockwise)

TECHNICAL SPECS

Alarm Dimensions: 5.2" dia. x 2.3" H
Weight: 10.6 oz
Operating Voltage: 120V AC 60Hz with 3V Sealed Lithium Metal Battery Backup for alarm.
Operating Current: Alarm 0.8 A
Temperature Range: 40°F (4°C) to 100°F (38°C)
Humidity Range: 10% to 95% relative humidity (RH)
Audio Alarm: 85dB at 10 feet
Test/Silence: Electronically simulates smoke condition, causing the unit to alarm. Press and hold test/silence button.
Alarm Reset: Automatic when smoke clears
Interconnections: Up to 18 units of First Alert or BRK Smoke, CO and Heat Alarms. Maximum number of 12 smoke alarms.
Smoke Sensor: Photoelectric
Strobe Light: 177 candela LED strobe
Indicator Lights/Sounds:
AC Power: Constant Green LED
DC Power: Green LED flash, once per minute
Local Alarm: Audio alarm, steadily flashing strobe and flashing Red LED
Remote Alarm (Smoke): Audio alarm, steadily flashing strobe and flashing Red LED
Remote Alarm (CO): If this alarm interconnected to a BRK CO or Combo Alarm, then CO audio alarm, intermittent flashing strobe and Red LED OFF
Silence: 10 minutes Local and Remote alarm, 8 hours End of Life
Alarm Latch: Red LED flashing 2 seconds on, 2 seconds off
Low Battery Alarm: Green LED flashing 2 seconds on, 2 seconds off
End of Life: 5 short chirps with 5 Green LED flashes once per minute
Listing: Certified to ULC STD S531 & ULC STD S526

SHIPPING SPECS

Individual Carton Dimensions 5.25"L x 3.0"W x 5.25"H
Weight: 0.86 lbs.
Cube: 0.05 ft³
UPC: 0 29054 01478 8

Master Carton Dimensions 5.75"L x 19.13"W x 6.0"H
Master Pack: 6
Weight: 5.55 lbs.
Cube: 0.38 ft³
I2of5: 600 29054 01478 0

Pallet Information
Cases per Layer: 18
Number of Layers: 7
Cases per Pallet: 126
Units per Pallet: 756
Cube: 59.26 ft³
Weight: 784 lbs.
